Last year, I got a recommendation to use Team Interior from one of my relative. My family and I wanted to make our new house's kitchen interior design unique and elegant. We also had a challenge that we have less clue as to what sort of material or design combination we should go for. Mr. Modi our main designer and their team were very helpful in coming up with good designs and material to fulfil our requirements. Team Interior team helped us to make and install our modular kitchen successfully and did a fabulous job with their design sense. Team Interior were beyond patient with us and came up with such great ideas for us that we never would've come up. We are looking forward to doing more work with Team Interior on the rest of our house. Great job guys!"
